

Lake Mary, FL USA – Bluelight Technology Equipment Now Available at Test Equipment Connection Corp.

Test Equipment Connection announced today that it has entered into a Distribution Agreement to sell new [Bluelight](#) telecom test equipment including portable handheld 1GbE and 10GbE [BlueScope](#) testers.

"The [BL6000A](#) is highly portable for anytime, anywhere testing, which reduces the cost and inconvenience of owning and carrying more than one test instrument," said President and COO Mike Novello. "This multi-protocol tester in one platform performs Ethernet/SONET/SDH/OTN/PDH/Fiber-Channel testing and follows the previous BlueScope models, proven to be simple to use while helping reduce unnecessary training time for field technicians."

About Bluelight Technology, Inc.

Bluelight Technology, Inc. is engaged in the business of providing handheld test and measurement (T&M) solutions for the telecommunications industry and commercial and governmental enterprises, including wired and wireless telecom operators, Metro Ethernet service providers, Internet service providers, network equipment manufacturers, telecommunications infrastructure companies, cable service providers, medium to large size enterprise customers, military and government agencies. Bluelight is a US company incorporated in California with headquarters located in the heart of Silicon Valley, also the site of the company's software and hardware research and development. Founded in October of 2006 with the vision of offering the T&M industry compact, cost-effective, and productivity enhancing devices that help reduce the cost of network testing and service turn-up time, Bluelight currently offers various configurations of 1 and/or 10 Gigabit Ethernet handheld testers collectively named BlueScope. The product models offered under BlueScope are: BL200A (single port 1GigE), BL400A (dual port 1GigE), BL1000A (single port 10GigE), BL1400A (single port 10GigE and dual port 1GigE), and BL2000A (dual port 10GigE).
