

Test Equipment Connection Corp. announced today that it has entered into a Distribution Agreement to market and sell new AnaPico Portable Low-Noise RF Signal Generators. AnaPico APSIN solutions are low noise, fast switching signal sources with true portability.

“AnaPico delivers high performance products that are a great value for small budgets,” said President and COO Mike Novello. “The [APSIN6000](#) signal generator is a highly flexible, truly portable RF signal generator. Alongside the [APSIN3000](#), it provides all functionality and performance that is expected from higher priced RF signal generators. Lightweight, low cost and high reliability make it the right RF signal source for a wide range of applications.”

About [AnaPico](#):

AnaPico is a leading supplier of microwave key components and RF signal generators for high-speed test and measurement applications. The company's core competences comprise design, fabrication and testing of RF and microwave electronic components and instruments. AnaPico was started in 2003 and officially founded in 2005. AnaPico headquarters is located in Zürich, Switzerland.

About [Test Equipment Connection Corporation](#):

Test Equipment Connection Corp., Test Equipment Connection Pte. Ltd., and TE Connection Asia Limited are industry-leading suppliers of new, refurbished and second-hand electronic test and measurement (“T&M”) equipment. The companies sell, buy, lease, rent, trade, repair and calibrate over 315 manufacturers including Anritsu, Rohde & Schwarz, Agilent, Tektronix, Advantest, LeCroy, Chroma and Fluke, with thousands of products available. The companies are a single source supplier with in-house calibration laboratories assuring that customers receive only the highest quality T&M equipment and support. Test Equipment Connection Corporation has over 250,000 customers, a 45,000 square foot warehouse and repair facility in the US, and 16 years of profitability and financial strength.
