

Lake Mary, FL USA – Time Electronics Calibration Test Equipment Now Available From Test Equipment Connection Corporation.

Test Equipment Connection Corp. announced today that it has entered into a Resale Agreement to market and sell new [Time Electronics](#) Multifunction Calibrators, Process Industry Calibrators, Decade Boxes, Calibration Software, Custom Calibration Benches, Potentiometers, and Handheld Calibrators. Time Electronics' wide range of products are used to measure voltage, current, resistance, temperature, and pressure, with many more applications and instrumentation that can be controlled and automated via GPIB, RS232, and USB.

"Time Electronics is a leading international manufacturer of calibrators and test equipment," said President and COO Mike Novello. "Time Electronics decade boxes are innovative, with protective ergonomic rubber boots on selected models. Their custom calibration benches are ideal for laboratories and workshops in need of multi-product testing. Their [multifunction calibrators](#), [power calibrators](#), [pressure](#), [temperature](#), and [loop signal calibrators](#) cover the wide ranging requirements of the process control and metrology industries."

About Time Electronics:

Established in 1967 Time Electronics Ltd. is an international company that designs and manufactures calibration, test, and measurement equipment. Products range from decade boxes and handheld calibrators to multifunction and custom-made calibration benches. Time Electronics main headquarters is based in Tonbridge, Kent in the United Kingdom, 30 miles south of London with 10,000 square feet of factory and office space. Time Electronics has delivered accuracy and precision in the field of calibration for over 40 years. Quality is an integral part of the company philosophy backed by high performance and reliability. Time Electronics is accredited to ISO 9001:2000. Time Electronics USA is operated in partnership with East Hills Instruments. Both companies are synonymous with high quality test equipment and have over 50 years combined experience in the instrumentation and calibration industry.

About Test Equipment Connection Corporation:

Test Equipment Connection Corp., Test Equipment Connection Pte. Ltd., and TE Connection Asia Limited are industry-leading suppliers of new, refurbished and second-hand electronic test and measurement ("T&M") equipment. The companies sell, buy, lease, rent, trade, repair and calibrate over 315 manufacturers including Anritsu, Rohde & Schwarz, Agilent, Tektronix, Advantest, LeCroy, Chroma and Fluke, with thousands of products available. The companies are a single source supplier with in-house calibration laboratories assuring that customers receive only the highest quality T&M equipment and support. Test Equipment Connection Corporation has over 250,000 customers, a 45,000 square foot warehouse and repair facility in the US, and 16 years of profitability and financial strength.
